Özgür Güler

Mobile, Game & Web Developer

Mardin, Türkiye · +90 553 728 42 32 · destek@ozgurguler.tech · ozgurguler.tech · GitHub · LinkedIn

SUMMARY

I create mobile apps and games, and I also work on web projects. I have 4 apps live on the app stores; WTF Yapay Zekâ has passed 50,000 downloads. I recently released Ahenk, an open-source Turkish text-to-speech model. I take my projects from idea to launch on my own, including design, code, payments and store releases. Outside of software, I manage several social media accounts I grew from scratch (100K+ followers each, one peaked at 1M+).

EXPERIENCE

Independent Developer

- **Dönerci**: 3D restaurant tycoon game (Godot). Live in 5 languages on the App Store and Google Play, with ads and in-app purchases.
- **Coğrafist**: Geography learning app for exam prep. Available on web, iOS and Android; 30+ study modes, interactive maps and subscriptions.
- **Print Fast**: Prints receipts, labels and barcodes from a phone to Bluetooth or Wi-Fi thermal printers.
- **WTF Yapay Zekâ**: Turkish AI assistant app. 50,000+ downloads, 1,700+ reviews.
- **Galaktik Uzay**: AI-powered space news site. Adds images from NASA's archive and publishes automatically in 6 languages at once.

Freelance Web Developer

- **ONOPO Store**: E-commerce site with iyzico payments and an admin panel for orders, products, coupons and shipping.
- **Ivricambi**: Product catalog site for a spare parts company.

OTHER PROJECTS

- **Ahenk**: Open-source Turkish text-to-speech (TTS) models with question intonation, 6 emotions and laughter. The small version runs in the browser; fewer errors than Trendyol-TTS on hard sentences.
- **Turkish speech recognition (STT):** Developing a small, commercially usable model, to be released as open source.
- **Automation system:** Automatically produces video content for my own social media accounts.
- **LLM Evaluation Toolkit**: Open-source tool that compares AI models on quality, speed and cost.
- **Whisper Web Scribe**: Open-source tool that transcribes audio in the browser, no server needed.

SKILLS

Mobile & Games: Capacitor (iOS/Android), Godot 4, AdMob, in-app purchases, store releases
Web & Backend: React, Next.js, TypeScript, Node.js, Cloudflare Workers, Firebase, SQL
AI: Speech model training (TTS/STT), OpenAI / Azure OpenAI, Whisper, content automation

SOCIAL MEDIA

Grew several accounts from scratch and still manage them, including Tarihsel Wojak (Instagram 400K+, previously 1M+, YouTube 100K+), Kırmızı ya da Mavi (YouTube 250K+), WTF Çeviri and Galaktik Uzay (Instagram 200K+). Ran paid promotions for the films Siccin and Nazar.

EDUCATION

Istanbul Yeni Yüzyıl University · Associate Degree, Oral and Dental Health · 2026
